

Colostrum6 Testimonial – Winder Lyons

The important thing to know about Anovite's colostrum products is what they'll do for you. Here's what they've done for me:

I started taking the colostrum on June 7th. Now I'll be 71 in October and over the last few years, my general health and wellbeing were slipping. I'd gained 20 pounds over the last year, basically had no energy, couldn't muster it up to exercise – for instance, if I tried walking I would tire really quickly. I was out of shape and had no energy to change that. I was not sleeping well, 4 to 5 hours per night was my norm, so I was tired all the time. I woke up tired.

I had lots of joint pain. Examples: when I did get out to walk, my knees hurt, and I couldn't squeeze lemons or open jars because of the constant pain in my hands. So I had basically become a couch potato. And I wasn't working to any degree; I just was not able to accomplish much. I had no stamina for anything and my wife was *really* concerned because, as she said, I was turning into an old man right in front of her eyes. I was getting old man's skin, looking grey, getting tottery, and I was often grumpy and I couldn't remember things. My memory was just shot at that point, and there was no joy. Everything was just dull and grey and I felt like I was always walking around underwater and just marking time.

Then I started using the Anovite products, and in the 12 weeks since then my life has changed in many profound ways. Now I started out taking a lot of colostrum (above the label instructions) because I felt so far down in the barrel and I had so far to go.

The results?

- ✓ Well first, I am now working at a really high level again – and this is not an exaggeration – the last time I was able to accomplish the kinds of things that I'm doing now, which is putting in 12 to 14 hour days 6 and 7 days a week, and having a ball doing it, and getting vast amounts done, was literally a decade ago. I cannot remember being able to do what I'm doing now since 2006, '07 or '08.
- ✓ I've shed almost 20 lbs., and have been losing fat and gaining muscle.
- ✓ I'm now walking 4 to 8 miles a day, up and down hills, 4 to 6 days a week and am without pain and being energized by the process. I can now squeeze lemons and open jars pain free!
- ✓ I'm routinely sleeping 6 to 7 hours a night and waking up rested, so I'm not tired all the time.

- ✓ I'm back to looking and feeling younger than my years.
- ✓ My attitude, mood, and ability to accomplish are all through the roof!
- ✓ My memory is back (I think.....)
- ✓ But mostly, I'm having fun again! I'm enjoying my life, and am now, once again, loving to work! Loving to help people!

I am so absolutely pleased with what's happening to me...

I had been in the worst shape of my almost 71 years, and now 12 weeks later, I feel transformed and back to being me again. This is astounding to me, and I am so inspired. It really gives me hope for all of the other folks out there like me, who desperately want positive change in their lives too – to you I say this: *It is possible!*
